OVERVIEW

DESCRIPTION

PRODUCT FAQ'S

**Build Muscle, Increase Strength:** *The Fast-Acting Solution* Bodybuilders naturally set goals, and this protein formula is extra motivation to reach your targeted objectives. New Zealand Whey Protein contains muscle mass qualities for optimal growth. You can be sure to reach your goals quickly and effectively by using this potent supplement. New Zealand Whey Protein is the solution to rise above your competing crowd. With its unique Whey protein blend, New Zealand Whey Protein will quickly produce strength and muscle gains. You can reach your desired goals with this potent formula that produces fast, effective results.

**Rapid Recovery** During intense workouts, there is a tremendous amount of stress that affects your muscles—which hurts your body to fully recover. Consuming New Zealand Whey Protein is vital for recovery, because of the amino acids it contains—allowing you to recover and “hit the weight room” intensively for continued muscle gains.

#### Increase Muscle Size

A product that is high in protein, and low in calories, New Zealand Whey Protein helps increase protein synthesis, which helps muscle enhancement. This promotes muscles to grow at a faster rate. Though New Zealand Whey Protein is low in carbohydrates, the combination of protein and carbs leads to increased hypertrophy—so you feel enthusiastic about your workout sessions.

#### Maintains Wellness

New Zealand Whey Protein improves immunity because it's able to protect harmful bacteria from the body, allowing for sustained longevity. This supplement keeps your immune cells healthy, and ready to fight off infections, and enhancing peace within your mind and body.

**Amazing taste and value!!!**

Posted by Ryan on 12th May 2015

I am an athletic trainer at a sports specific gym and have tried many different proteins. Just started trying this and I have to say I am very impressed. The price point and quality just can not be beat. This will be going to all my athletes in the very near future. Also love that it is Canadian made and athlete safe!

**Great breakfast for busy people**

Posted by Mary on 18th Apr 2015

I don't have a lot of time in the morning, so 5 mornings out of the week I have a smoothie for breakfast using this product, frozen blueberries and frozen mangos. The other 2 mornings I eat a regular breakfast.

**First rate quality. Great taste.**

Took a chance on this brand, usually buy a product affiliated with UFC. This is as good if not better, mixes great with water and tastes good. Will get more when it is offered on sale, getting free shipping was a bonus too. Don't hesitate, buy the NZ Whey.

### Great Taste, Amazing Price, and Extremely High Quality

Posted by Wil Bell on 24th Feb 2015

As a personal trainer and athlete, I have tried a variety of protein powders ranging in flavours, price, and quality. And after trying the New Zealand Whey Protein, I can say that this is hands down the best I've tried to date. The taste is unbelievably good, it mixes easily, and the price is extremely reasonable! Very happy with this product and would definitely suggest this to anyone.

### Extremely High Quality, and Delicious Tasting Protein

Posted by Wil Bell on 24th Feb 2015

As a personal trainer and athlete, I have tried a variety of protein powders ranging in various flavours. However, this protein isolate blend is beyond anything I have ever tried before. It has very good mixing qualities, tastes absolutely incredible, and has zero carbohydrates to help stay lean. And with the a great BCAA ratio, you simply cannot get any better than this protein!

7. ★★★★★

### price/quality ratio is amongst top

Posted by Antoine on 11th Feb 2015

Got cookies and cream, this is delicious, great mix ability. I really appreciate the GMP and WADA certifications, which is hard to find at a reasonable price. I have been buying whey since 2010 and i think that from now on, proteincO will be the first place i'll look at. Looking forward to try the newzealand isolate. I'll keep you in touch with this product too.

8. ★★★★★

### Great Value & Quality

Posted by Justin G. on 30th Jan 2015

Easy on my stomach, seems to be top-quality for processing method and freshness. Flavour of the vanilla is quite nice, not metallic tasting or cheap-tasting, like many vanilla-flavoured products are. Recommended for a high-quality value whey protein concentrate option.
